

Mariner Information Notice

Notice 5.5

Sunrise Wind Relocated Boulders (Preliminary)

Preliminary locations of boulders and other objects relocated along Sunrise Wind's export cable and in the Sunrise Wind Lease Area.

Published Date: 09/06/2025

Updated: 20/08/2025

Introduction

Welcome to the Enhanced Mariner Information Notice for the "Sunrise Wind Relocated Boulders (Preliminary)_25-08-20".

This plotter file contains the locations of boulders and other objects relocated along Sunrise Wind's export cable and in the Sunrise Wind Lease Area. Boulders and other objects along the export cable and inter-array cables are relocated to a maximum of 50 feet (18 meters) perpendicular to cable alignment. Boulders and other objects within approximately 500 to 650 feet (150 to 200 meters) of the wind turbine locations and 20 feet (6 meters) of offshore converter station location are relocated as close to the radius boundary as possible. Relocated boulders are larger than 10 inches and up to 6.5 feet (2 meters) in size. Boulders and other object are identified by a numerical value in the sequence in which they were relocated. Relocation of boulders and other objects along the export cable is complete. Relocation of boulders and other objects in the Lease Area is on-going. These locations are preliminary and are subject to change.

Updated 08/18/2025 added 34 more relocated boulders in the Sunrise Wind Lease Area
